

AKAN

SIDE TABLE

Undisputed protagonist of the Afro theme, the Akan side table shows on the top a typical decoration inspired by an African mask and reproduced in black and ivory marbles, with gold details. According to the traditional view of the Akan people, gold is a real living being with a strong and fearful spirit, and due to this its exceptional nature is considered with respect and veneration.

Structure in patinated gold liquid metal lacquered wood. Top with ivory and black marbles inlay and details in polished brass.

Other finishings available upon request from Etro Home Interiors collection.
