

BABEL

FOLDABLE TRAVEL CHAIR WITH SUITCASE

The iconic piece, part of the “Nomadic Story”, inspired by travels in India and Western Asia, in which the power of symbolic language is expressed through the masterful use of fabrics and of the brand’s quintessential pattern, Paisley. The Babel seat has a shape reminiscent of that of a foldable travel chair, while still maintaining a refined, luxurious throne-like form. Thus, the voyage themed essence of the collection is enriched by a touch of irony, the tale of travel emphasised by the symbolic presence of a suitcase, a trusted companion to the distant lands so dear to the brand.
