

NUBIA

ARMCHAIR

An armchair full of meanings and references. The studded profile creates a play of geometry that resembles the African shields in the shape, as well as the color, a warm and intense brown, which evokes the African lands. The fabric with paisley design brings us back instead to the deepest identity of the Etro brand, where the sinuous palm of the cashmere design is the symbolic element from which the Etro tradition flourishes.

Structure in wood and foam.
Upholstery in nubuck leather cat. A Nuuk col. 1 Brown with seat in fabric cat. A Zulu col. 2 Cappuccino. Ornamental golden nails.

Other finishings and upholsteries available upon request from Etro Home Interiors collection.
