

SHARP

NIGHT TABLE

The mystic symbol of the tao, the embrace between the two opposites, yin and yang, or the symbolic encounter between two "boteh", the drop-shaped vegetable motif that generates the paisley design. A small table with a double interpretation, in which the top is made in part of wood and in part of ethnic fabric. The "E" shaped handles in polished brass recalling the theme of the logo add an institutional element that signs and seals the quality of the piece.

Structure in patinated bronze wood and fabric cat. A Deccan col. 1 Nomad. "E" shaped handles in polished brass. Inner parts of drawers covered with microfiber. Pleated base in gold lacquered wood.

Other finishings and upholsteries available upon request from Etro Home Interiors collection.
